

OBJECTIVE:

As a dedicated Computer system technician student, I am eager to obtain an internship opportunity that allows me to apply classroom knowledge to real-world projects. I am seeking to gain practical experience, refine my skills, and learn from experienced professionals in the field.

QUALIFICATION SUMMARY:

- Capable in testing and checking software quality to ensure optimal performance and user satisfaction.
 - Experience in proficiently handling and managing data ensuring its accuracy, accessibility, and security.
 - Developed data analysis as a valuable skill during my role as Assistant Manager, utilizing it to identify patterns and optimize software performance.
 - Proficiency in meeting project deadlines, reinforced by consistent habit of completing academic assignments punctually.
 - Interact with over 200 customers daily, helps to foster better communication.
-
